Meta Gallatin Data Center

The Gallatin Data Center is part of our global infrastructure that brings Meta technologies and programs to life, making the future of human connection possible.

$1.5B+

Data center investment in Tennessee

2020

Broke ground on the Gallatin Data Center

100+

Operational jobs supported

1,100

Skilled trade workers on site at peak construction

$2.2M+

Direct funding to Sumner County-area schools and nonprofits

120+

Grants and sponsorships provided locally since 2021

Operating Responsibly

Responsible energy and water use

Meta worked with TVA (Tennessee Valley Authority) to plan for our energy needs and to ensure we are paying the full costs for the energy used by our data center, so consumers are not negatively impacted. Meta has also worked with Gallatin Public Utilities to pay the full cost of water and wastewater service for our data center. Our operational data center buildings achieve LEED® Gold certification by focusing on efficiency, sustainability and innovation.

Water stewardship

Our goal is to be water positive in 2030, where we will restore more water than we consume globally where Meta has owned operations.

Clean and renewable energy

We are committed to supporting the addition of new energy projects to the grid — this includes eight projects in Tennessee that are adding 530 megawatts of new clean and renewable energy. Meta matches all of its electricity use with 100% clean and renewable energy.

Our global fleet of data centers supports Meta technologies that empower more than 3.6 billion people around the world to share ideas, offer support and make a difference.

Meta

Partnering with Tennessee

Meta is committed to being a good neighbor and community partner. We do this by working with city and local partners to fund new critical infrastructure, such as roads, energy, water, wastewater and conservation projects, in addition to providing grants annually to support schools and nonprofits.

Workforce Development

Meta is investing in the workforce that's building America's digital infrastructure — starting with the communities where we live and work. That commitment includes America's Workforce Academy (AWA), a nationwide, unprecedented fast-track to a long-term career in a skilled trade. Powered by an initial $115 million first-year investment, AWA is a cost-free program that supports all participants while they learn and then guarantees a job for all graduates. Graduates earn both the industry-recognized National Center for Construction Education and Research (NCCER) credential and an America's Workforce Certificate, both designed to travel with the worker across employers and industry sectors.

Meta has been proud to invest in the community as a supporter of Sumner County Schools. Through this partnership, elementary and middle school students across the district have access to robotics programming and free competitions; project-based learning opportunities through Meta-supported pollinator gardens at seven campuses; and support for workforce development as a featured partner of Be Pro Be Proud, which leverages Meta Quest VR headsets to encourage exploration of careers in technical professions.

Water Stewardship

Our water stewardship program is focused on increasing data center water efficiency, supporting water restoration and conservation projects in watersheds where we have data centers, and being transparent with our water data.

The Gallatin Data Center prioritizes on-site water efficiency by:

- Using cooling technology that is significantly more water efficient than the industry standard.
- Reusing water numerous times before discharging it as wastewater.
- Landscaping with native vegetation where possible to reduce irrigation demands.
- Capturing and infiltrating rainwater on site.
- Incorporating water-saving fixtures and technologies within data center facilities.

Supporting local organizations

Meta supports the community through The Future is for Everyone Fund, providing direct funding for local nonprofits that support the community. Additionally, we bring our no-cost digital skills training workshops to Sumner County , helping small businesses and nonprofits grow their reach.

We're proud to support community projects led by:

Beech High School

Borderless Arts Tennessee

Children Are People

Cragfont State Historic Site

Forward Sumner Economic Partnership

Friends of the Gallatin Public Library

Gallatin Area Chamber of Commerce
