

Meta's Los Lunas Data Center

The Los Lunas Data Center is part of Meta's global infrastructure that brings our technologies and services to life.

~\$2B

Data center investment in New Mexico

2016

Broke ground on the Los Lunas Data Center

400+

Operational jobs supported once completed

1,100

Skilled trade workers on site at peak construction

\$4.5M+

Direct funding to Valencia County area schools and nonprofits

200+

Grants and sponsorships provided locally since 2019

We prioritize sustainability

Meta's goal is to be water positive in 2030, where we restore more water than we consume.

Our data centers' electricity use is matched with 100% renewable energy and our global operations have reached net zero emissions.

Meta-supported projects are adding 775MW of new renewable energy and 100 MW of battery storage in New Mexico.

Meta's global fleet of data centers support our technologies that empower more than 3 billion people around the world to share ideas, offer support and make a difference.

Partnering with New Mexico

We are committed to supporting the community through sourcing labor and materials locally where we can, volunteering, partnering with local chambers, and supporting local schools, nonprofits and community projects.

Supporting local schools and nonprofits

One way we support the community is through our annual Data Center Community Action Grants program and other direct funding for projects that put the power of technology to use for community benefit, give people the power to build strong, sustainable communities, and improve STEAM education.

Prioritizing sustainability

Meta approaches sustainability from the ground up — from design and construction to operations — by prioritizing energy efficiency and renewable energy, water stewardship, and responsibly managing the end of life of our equipment. Our operational data center buildings achieve LEED® Gold certification by focusing on efficiency, sustainability and innovation. We worked with the Public Service Company of New Mexico (PNM) to meet our 100% renewable energy goals. We will support 11 new renewable energy projects and two battery storage projects in New Mexico and helped create a renewable energy program for other customers looking to meet their renewable energy goals.

Minimizing water use

We are proud to build some of the most sustainable data centers in the world and prioritize onsite water efficiency.

The Los Lunas Data Center:

- Uses cooling technology that is significantly more efficient than the industry standard.
- Reuses water numerous times before discharging it as wastewater.
- Is landscaped with native vegetation where possible to reduce irrigation demands.
- Captures and infiltrates rainwater on site.
- Incorporates water saving fixtures and technologies within data center facilities.

Water restoration

Our goal is to restore more water into local watersheds in New Mexico than we consume by supporting water restoration and conservation projects led by local community partners, including:

- Audubon Southwest
- Forest Service Foundation
- Trout Unlimited

We're proud to support projects led by:

Belen Consolidated Schools
Belen Public Library
Be Pro Be Proud New Mexico
Explora Children's Science Center
Friends of Whitfield Wildlife Conservation Area
Los Lunas Library
Los Lunas Schools
National Museum of Nuclear History & Science
New Mexico Museum of Natural History & Science
Rio Communities Optimist Club
Teeniors
University of New Mexico - Valencia Campus
United Way of Central New Mexico
Valencia County Business Incubator
Valencia County Literacy Council
Valencia Shelter Services
