

# Meta's Los Lunas Data Center

The Los Lunas Data Center is part of Meta's global infrastructure that brings our technologies and services to life.

**\$2.5B+**

Data center investment in New Mexico

**2016**

Broke ground on the Los Lunas Data Center

**400+**

Operational jobs supported once completed

**1,100**

Skilled trade workers on site at peak construction

**\$4.9M+**

Direct funding to Valencia County-area schools and nonprofits

**210+**

Grants and sponsorships provided locally since 2019

## We prioritize sustainability

Meta's goal is to be water positive in 2030, where we restore more water than we consume.

Our data centers' electricity use is matched with 100% clean and renewable energy, and our global operations have reached net zero emissions.

Meta-supported projects are adding 885 megawatts of new renewable energy and 100 megawatts of battery storage in New Mexico.

Meta's global fleet of data centers supports our technologies that empower more than 3 billion people around the world to share ideas, offer support and make a difference.

# Partnering with New Mexico

We are committed to supporting the community through sourcing labor and materials locally where we can, volunteering, partnering with local chambers, and supporting local schools, nonprofits and community projects.

## Supporting local schools and nonprofits

We support the community through our annual Data Center Community Action Grants program and other direct funding for projects that put the power of technology to use for community benefit, give people the power to build strong, sustainable communities, and improve STEAM education.

## Prioritizing sustainability

Meta approaches sustainability from the ground up — from design and construction to operations — by prioritizing energy efficiency and renewable energy, water stewardship, and responsibly managing the end of life of our equipment. Our operational data center buildings achieve LEED® Gold certification by focusing on efficiency, sustainability and innovation. We worked with the Public Service Company of New Mexico (PNM) to meet our 100% clean and renewable energy goal. We support 11 new renewable energy projects and two battery storage projects in New Mexico, and helped create a renewable energy program for other customers looking to meet their renewable energy goals.

## Minimizing water use

We are proud to build some of the most sustainable data centers in the world and prioritize on-site water efficiency.

The Los Lunas Data Center:

- Uses cooling technology that is significantly more water efficient than the industry standard.
- Reuses water numerous times before discharging it as wastewater.
- Is landscaped with native vegetation where possible to reduce irrigation demands.
- Captures and infiltrates rainwater on site.
- Incorporates water-saving fixtures and technologies within data center facilities.

## Water restoration

Our goal is to restore more water to local watersheds in New Mexico than we consume by supporting water restoration and conservation projects led by local community partners, including:

- Amigos Bravos
- Audubon Southwest
- National Forest Foundation
- Rocky Mountain Youth Corps
- Trout Unlimited

## We're proud to support community projects led by:

- Be Pro Be Proud New Mexico
- Belen Consolidated Schools
- Belen Public Library
- Explora
- Friends of Whitfield Wildlife Conservation Area
- Los Lunas Public Library
- Los Lunas Schools
- New Mexico Governor's STEM Challenge
- New Mexico Museum of Natural History & Science
- Teaching Outdoors to ALL Learners (TOTAL NM)
- Teeniors
- United Way of North Central New Mexico
- University of New Mexico — Valencia Campus
- Valencia County Business Incubator
- Valencia County Literacy Council
- Valencia Shelter Services
- Wilderwood
