

Meta Prineville Data Center

The Prineville Data Center is part of our global infrastructure that brings Meta technologies and programs to life, making the future of human connection possible.

\$2B+

Data center investment in Oregon

2010

Broke ground on the Prineville Data Center

350+

Operational jobs supported

1,000

Skilled trade workers on site at peak construction

\$5.7M+

Direct funding to Crook County-area schools and nonprofits

400+

Grants and sponsorships provided locally since 2011

Operating Responsibly

Responsible energy and water use

Meta worked with Pacific Power to plan for our energy needs and to ensure we are paying the full costs for the energy used by our data center, so consumers are not negatively impacted. Meta has also worked with the City of Prineville to pay the full cost of water and wastewater service for our data center. Our operational data center buildings achieve LEED® Gold certification by focusing on efficiency, sustainability and innovation.

Water stewardship

Our goal is to be water positive in 2030, where we will restore more water than we consume globally where Meta has owned operations. In Prineville, we will restore 200% of the water consumed by the data center to local watersheds.

Clean and renewable energy

We are committed to supporting the addition of new energy projects to the grid — this includes three projects in Oregon that are adding 220 megawatts of new clean and renewable energy. Meta matches all of its electricity use with 100% clean and renewable energy.

Our global fleet of data centers supports Meta technologies that empower more than 3.6 billion people around the world to share ideas, offer support and make a difference.

Partnering with Oregon

Meta is committed to being a good neighbor and community partner. We do this by working with city and local partners to fund new critical infrastructure, such as roads, energy, water, wastewater and conservation projects, in addition to providing grants annually to support schools and nonprofits.

Supporting local organizations

Meta supports the community through The Future is for Everyone Fund, providing direct funding for local nonprofits that support the community. Additionally, we bring our no-cost digital skills training workshops to Prineville, helping small businesses and nonprofits grow their reach.

Water Stewardship

Our water stewardship program is focused on increasing data center water efficiency, supporting water restoration and conservation projects in watersheds where we have data centers, and being transparent with our water data.

The Prineville Data Center prioritizes on-site water efficiency by:

- Using cooling technology that is significantly more water efficient than the industry standard.
- Reusing water numerous times before discharging it as wastewater.
- Landscaping with native vegetation where possible to reduce irrigation demands.
- Capturing and infiltrating rainwater on site.
- Incorporating water-saving fixtures and technologies within data center facilities.

Our goal is to restore more water to local watersheds in Oregon than we consume by supporting water restoration and conservation projects led by local community partners, including:

- City of Prineville
- Crooked River Watershed Council
- Deschutes Land Trust
- Deschutes River Conservancy
- National Forest Foundation
- Ochoco Irrigation District
- USDA Natural Resources Conservation Service
- U.S. Forest Service

We're proud to support community projects led by:

Bend Chamber	Economic Development for Central Oregon
Bowman Museum/Crook County Historical Society	Every Child Central Oregon
CASA of Central Oregon	Family Access Network
Central Oregon Trail Alliance	High Desert Food and Farm Alliance
Children's Museum of Central Oregon	High Desert Museum
Crook County 4-H	HORSES on the Ranch
Crook County Kids	Kiwanis
