

Meta's Sarpy Data Center

The Sarpy Data Center is part of Meta's global infrastructure that brings our technologies and services to life.

\$2.5B+

Data center investment in Nebraska

2017

Broke ground on the Sarpy Data Center

300+

Operational jobs supported

1,300

Skilled trade workers on site at peak construction

\$4.1M+

Direct funding to Sarpy County-area schools and nonprofits

185+

Grants and sponsorships provided locally since 2019

We prioritize sustainability

Meta's goal is to be water positive in 2030, where we restore more water than we consume.

Our data centers' electricity use is matched with 100% clean and renewable energy, and our global operations have reached net zero emissions.

A Meta-supported project is adding 320 megawatts of new renewable energy in Nebraska.

Meta's global fleet of data centers supports our technologies that empower more than 3 billion people around the world to share ideas, offer support and make a difference.

Partnering with Nebraska

We are committed to supporting the community through sourcing labor and materials locally where we can, volunteering, partnering with local chambers, and supporting local schools, nonprofits and community projects.

Supporting local schools and nonprofits

We support the community through our annual Data Center Community Action Grants program and other direct funding for projects that put the power of technology to use for community benefit, give people the power to build strong, sustainable communities, and improve STEAM education.

Prioritizing sustainability

Meta approaches sustainability from the ground up — from design and construction to operations — by prioritizing energy efficiency and renewable energy, water stewardship, and responsibly managing the end of life of our equipment. Our operational data center buildings achieve LEED® Gold certification by focusing on efficiency, sustainability and innovation. We worked with Omaha Public Power District to meet our 100% clean and renewable energy goal.

Minimizing water use

We are proud to build some of the most sustainable data centers in the world and prioritize on-site water efficiency. The Sarpy Data Center:

- Uses cooling technology that is significantly more water efficient than the industry standard.
- Reuses water numerous times before discharging it as wastewater.
- Is landscaped with native vegetation where possible to reduce irrigation demands.
- Captures and infiltrates rainwater on site.
- Incorporates water-saving fixtures and technologies within data center facilities.

We're proud to support community projects led by:

- Arbor Day Foundation
- Bellevue Public Schools
- Fontenelle Forest
- Gifford Farm Education Center
- Girl Scouts Spirit of Nebraska
- Gretna Public Schools
- La Vista Community Foundation
- Lift Up Sarpy County
- Logan Fontenelle Middle School
- Midlands African Chamber
- Midlands Community Foundation
- Midlands Community Foundation Coronavirus Response Fund
- Nebraska Vietnam Veterans Memorial
- Nebraskans for Solar
- Omaha STEM Ecosystem
- Papillion Area Historical Society
- Papillion Community Foundation
- Papillion La Vista Community Schools
- Papillion-La Vista Community Theatre
- Papillion Public Library
- Prairie STEM
- Sarpy Community YMCA
- Sarpy County Food Pantries (via Papillion Community Foundation)
- Sarpy County Historical Society
- Springfield Community Foundation
- Springfield Memorial Library
- Springfield Platteview Community Schools
- Twin Ridge Elementary
- United Way of the Midlands
- YMCA of Greater Omaha
